Ticket C: [1,3,5,9] with [1,3,5,9] with [1,3,9] Total Cost: \$18

F.A.S.T. Sheets Statistics: Class - An average of recent class ratings. Speed - An average of recent speed ratings. Early - An average of pace figures for the first quarter of a race. Late - An average of pace ratings for the last quarter of a race. Platinum - The horse's average overall pace figure adjusted by class, speed, power rating and earnings per start. Break - Propensity of a horse to break during the race.

Basic Strategy: The TrackMaster F.A.S.T. Sheets for Harness Racing attempt to model how a race is likely to unfold while assessing each horse's probability of winning and producing acceptable (fair) odds for the contenders. As post time nears, if only one contender has odds equal to or higher than its acceptable odds (an overlay), then wager on that horse to win. If there is more than one overlay, a bet on the largest (post-time odds to one)/(fair odds to one) ratio is advised.

Exotic Strategy: At the back of every report, you will find the Exotic Wagering Suggestions. This section details tickets to play for Exactas, Trifectas, the Daily Double, etc. Use the plays to optimize your wagers on your favorite exotic bets. (Note: some of the plays for a specific exotic wager do require multiple tickets (A, B, C). This is to maximize the chances of cashing a ticket, while still keeping the cost down.)
